IMPLEMENTS and EQUIPMENT

Not enough of these items are on hand to offer in this catalog . .
but here are 3 ways you can find out about availability

1 Write direct to your nearest SEARS Mail Order House

Please tell us exactly what you need—kind, size and quantity. For fencing: give kind, gauge, height and quantity. Ask for our FREE Circulars describing the merchandise you want. Write to Sears, Roebuck and Co., Personal Service Department, in care of your nearest SEARS mail order house.

2 Contact your nearest SEARS Catalog Order Office

Come in and see, or telephone the Sears Catalog Order Office in your community. You can place your orders through this office. Also, through the Order Office you can keep informed, from time to time, as to which items are available and when to place your order. Better call there today.

3 Visit your nearest SEARS Retail or Farm Store

You'll find here a wide selection of farm equipment. Here you can see each item, talk over any questions, select what you want. Also be sure to visit the Catalog Order Desk at your Retail Store. You can order through the Catalog and take advantage of Sears money-saving prices.

Write for any FREE circular . . ask for it by name and number

As you know, SEARS, like others, have not been able to produce as many farm implements as we had planned this year. Also, public demand for our equipment has increased. Thus we find ourselves in a period of short supply. We are unable to list our many DAVID BRADLEY and FARM-MASTER items in this catalog.

However, the adjoining list of circulars indicates that we do have some equipment. Therefore we urge you to write us if you need any of this equipment. We are anxious to help you, but because the supply is limited, we ask that you write us as soon as possible. We will handle requests in the order in which they are received. Write to Sears Personal Service Department at your nearest SEARS mail order house.

Remember, all items are fully guaranteed

Complete REPAIR PARTS SERVICE for all Farm Equipment SEARS have sold

Keep your equipment in perfect working condition with SEARS Guaranteed repair and replacement parts

Every SEARS Farm Store, or your nearest SEARS mail order house can furnish you repair and replacement parts for your DAVID BRADLEY and FARM-MASTER equipment. Many fast-wearing parts and repair parts for other popular makes are also available. SEARS Farm Stores carry a normal supply of parts—mail order houses carry a much larger stock to fill orders sent in by customers as well as to fill emergency orders sent in by Farm Stores. All these stocks mean fast service. Each of SEARS Implements has a name plate attached, giving model number. Please be sure to mention this number whenever ordering parts for your DAVID BRADLEY or FARM-MASTER Equipment. You'll also find this model number on the instruction book and parts list for each item. Keep your equipment in perfect condition for efficient work.
