\$87.95 from factory cash \$9.00 down

Leaf Mulcher Attachment for 21-inch Rotary Lawn Mower **D**

\$8.95 cash from factory

C 21-inch Rotary Mower Attachment. Attaches in seconds to Handiman Power Unit without tools. Propelled by Power Unit . . . handles easily in tight spots because of Power Unit's one-lever forward, neutral and reverse. Inset wheels permit close trimming. Cutting height adjusts. Independent clutch for blade.

D Leaf Mulcher Attachment for Rotary Mower above. Consists of special mulcher screen which attaches easily inside mower housing and high-carbon steel blade. Leaves are held up inside screen until pulverized, then are discharged as beneficial mulch.

E 30-in. Reel-type Mower Attachment. Quick, no-tool hook-up. Outstanding maneuverability provided by Handiman Power Unit. Trims close. Height of cut adjusts. Mower has separate clutch.

Rotary Tiller Attachment with Gauge Wheel. Prepares perfect seed bed in just one step. 8 steel tines revolve to cut 4 1/2 in. deep in 12 in. wide path. Hardened shafts, heavy-duty bronze bearings, roller chain drive. Has gauge wheel for depth control (not illustrated).

Auxiliary Weight. Recommended for use with Rotary Snow Plow and Snowblade to increase traction. Use also with Rotary Tiller.

Handiman Power Unit with 110-volt electric starter. Same Power Unit as described at right with 110-volt electric starter. Easy starting in any weather . . . just plug into outlet and engine is running instantly. See page 1468 for 32 D 9006F—3-wire cord and 3-wire adapter for 110-volt starters.

110-volt Starter for Handiman Power Unit. Mounts easily on Handiman . . . just plug into outlet and engine is running instantly.

Push-Button Battery Type Starter for Handiman Power Unit. Starts engine easily anywhere. Complete with 6-volt battery, motor.

A Combination Handiman Power Unit with Rotary Snow Plow Attachment, 110-volt Electric Starter. Power Unit has 2 3/4-HP Briggs & Stratton engine with handlebar throttle control. One lever on handlebar gives forward, neutral or reverse. Gear-type drive to wheels. Independent clutch for PTO attachments. 2-range transmission. Quick attachment change-over. 110-volt Electric Starter . . . fast, easy starting in the coldest weather! Just plug in outlet, disconnect when engine starts.

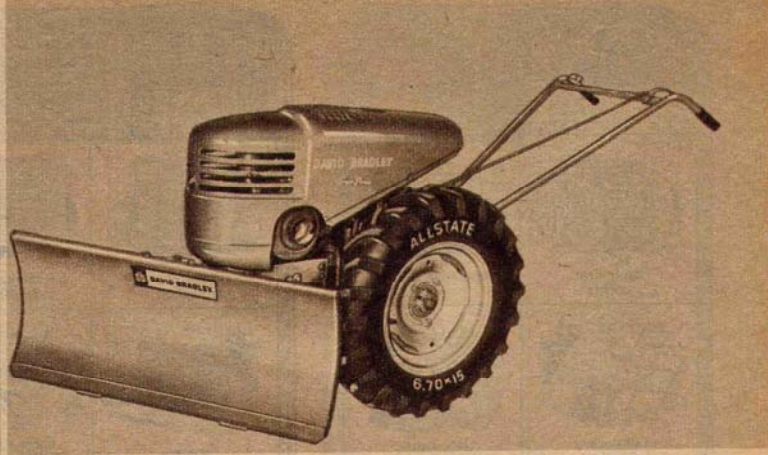

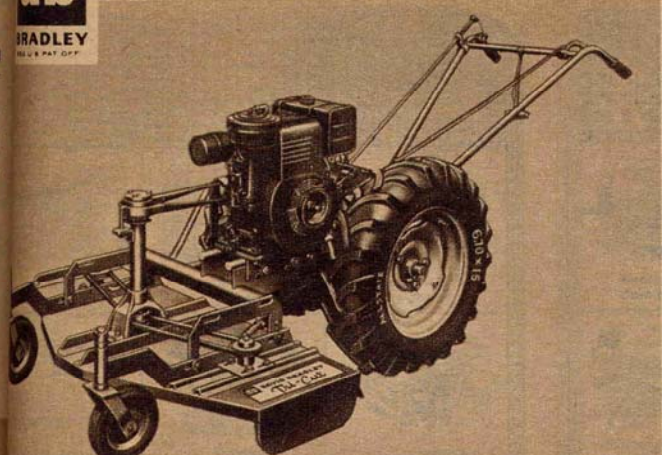

Rotary Snow Plow Attachment. Clears 18-in. path through all types of snow up to 50 ft. per minute . . . handles up to 14 in. depth of new fallen snow. Throws snow in any direction up to 12 ft. away! Scrapes walks clean or adjusts up to 1 1/2 in. above rough surfaces.

B Combination Handiman Power Unit with 26-in. Snowblade Attachment, Auxiliary Weight, 110-volt Electric Starter. Just plug in starter for effortless starting in any weather. Snowblade is 26 in. wide, 12 in. high. Handles up to 6 inches of new snow. Angles left or right.
